

Program Objectives

At the conclusion of this program, the participant will:

- Gain knowledge about the dangers of Fentanyl and opiod interactions and learn strategies to prevent tragic consequences of the use of such combinations.
- Obtain an overview of suicidality across the world's populations. Update on the rising incidence of suicide between the youth and its relationship with medications such as antidepressants.
- Learn about a suicide prevention program which uses multi-agency collaborative strategies addressing suicidal behavior among children in schools, crisis events, as well as assistance to survivors of suicide.
- Obtain an update on the current Department of Community Mental Health recovery initiatives involving community mental health and substance use services.

Target Audience

Pediatricians, Primary Care Physicians, Psychiatrists, Nurses, Social Workers, Psychologists, Pharmacists, Administrators, mental healthcare workers and other allied Health Professionals

CME Accreditation Statement

"This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of Wayne State University School of Medicine and Macomb County Community Mental Health Services. The Wayne State University School of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

The Wayne State University School of Medicine designates this educational activity for a maximum of 5.75 *AMA PRA Category 1 Credit(s)*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity."
